I'm **Błażej Wodecki**, a Frontend Developer
with 1.5 years of experience.

My goal is to build user-friendly
and engaging web pages and products.

SKILLS

NEXT.JS REACT TYPESCRIPT TAILWIND NODEJS ZUSTAND POSTGRESQL
HEADLESS CMS DOCKER GIT AI (LLM) TOOLS (AGENTS, MCP, CODE-COMPLETIONS, WORKFLOWS ETC.)

COMMERCIAL EXPERIENCE

Boring Owl,
Frontend Developer

January 2024 — Present

Developed and maintained responsive websites using modern web frameworks. Managed backend systems and optimized CI/CD pipelines to ensure reliable, automated deployments.

Worked on projects including service platforms, marketplace platforms, e-commerce sites, and advanced websites.

react / next.js / tailwind / typescript / node.js / aws / docker / strapi cms
figma / git / jira

EDUCATION

Computer Science,
AHE Łódź

2023 — 2027

I am studying Computer Science, covering both fundamental theory and practical applications to build a strong foundation in programming, algorithms, and system design.

PROJECTS & PRODUCTS

Tetra,
Management Discord App

September 2022 — Present

Tetra is a Discord application designed to help users manage their servers, with a core feature focused on processing images. I also developed a complementary web application to extend the app capabilities.

The application has been installed on over 2 700 servers, serving more than 1 000 000 users.
